

Mau-ssage!

The latest trend at EMRO is Mau Massage!

Pamela Rezk, a Masseuse/Body Worker in Cairo, Egypt, kindly volunteered a few hours of her time today to come into EMRO to massage many of the cats, to help with circulation issues, digestion and overall relaxation. Pam handled a couple dozen cats in her time here, including even a small puppy we are fostering, who has a torn ligament on her leg. You can see how the cats enjoyed the massage, and ones like Nivene really loved to have her belly rubbed (after giving birth and then getting spayed a few months ago). Pam promised to return sometimes soon, perhaps with a chiropractic colleague. *(If anyone locally wishes to reach Pam, we can forward her telephone to them. She works at the CSA in Cairo.)*
